Yes, that's correct. Mike Nelson and I have been doing fit tests in the office all week as well. Mike can get him tested tomorrow; just have him get with Mike to schedule.

Understand. I just needed to confirm with you that if I can get the contractor to give the respirator test, you are provided the documentation, then he would be clear to deploy? tx

No, he is current on his HAZWOPER training, but because of his routine field work, he is required to be fit tested and trained on his respirator annually. He is currently overdue and therefore does not meet requirements to conduct field activities.

Good Afternoon,

I've reviewed Chris's H&S file and he is not cleared to deploy in support of Hurricane Harvey at this time. He is currently overdue on his annual respirator fit test and training (last taken 9/12/16; due annually).

<image001.png>

I've called him. He's going to talk to Ben. He said he might can but he's also got EOY commitments to make.

Chris is going to call me back after talking to Ben.
